13. (Confidential - GLC) Received a call from Guy McConnell, Clerk, Senate Appropriations Committee, who said that despite the briefings he has received in the past two days Chairman McClellan is quite confused as to the interrelationships of DIA, NSA, State Department, INR, etc. McConnell asked if we had a simple chart of the intelligence community that might help the Chairman in understanding the interrelationships involved. John Clarke will provide us with such a chart. McConnell also suggested that we have Mr. Colby send the Chairman a letter tomorrow concerning McConnell and Calloway's proposed visit to certain of our field stations during the August recess.

(Unclassified - RJK) Delivered an FBIS item in which his name was mentioned to the office of Representative William Lehman (D., Fla.) and took the occasion to speak to his Administrative Assistant, Joan Kunkel, about the purpose for this service to Congress. While we were talking, the Congressman came in and observed that since he came to Washington, he has learned to appreciate our Agency and that we are "good guys."

17. (Secret - LLM) In response to his call met with Bill Jones, Staff Director, Subcommittee on Government Activities, House Government Operations Committee, who raised for Chairman Jack Brooks a number of questions regarding SAT. Jones explained their interest arose out of the responsibility for oversight of CAB and the disposal of surplus property and Brooks' deep interest in assuring that no one is being unjustly enriched or getting an unfair competitive advantage. I explained to Jones that I did not know the facts and would attempt to get the answers. See Memorandum for the Record.
